
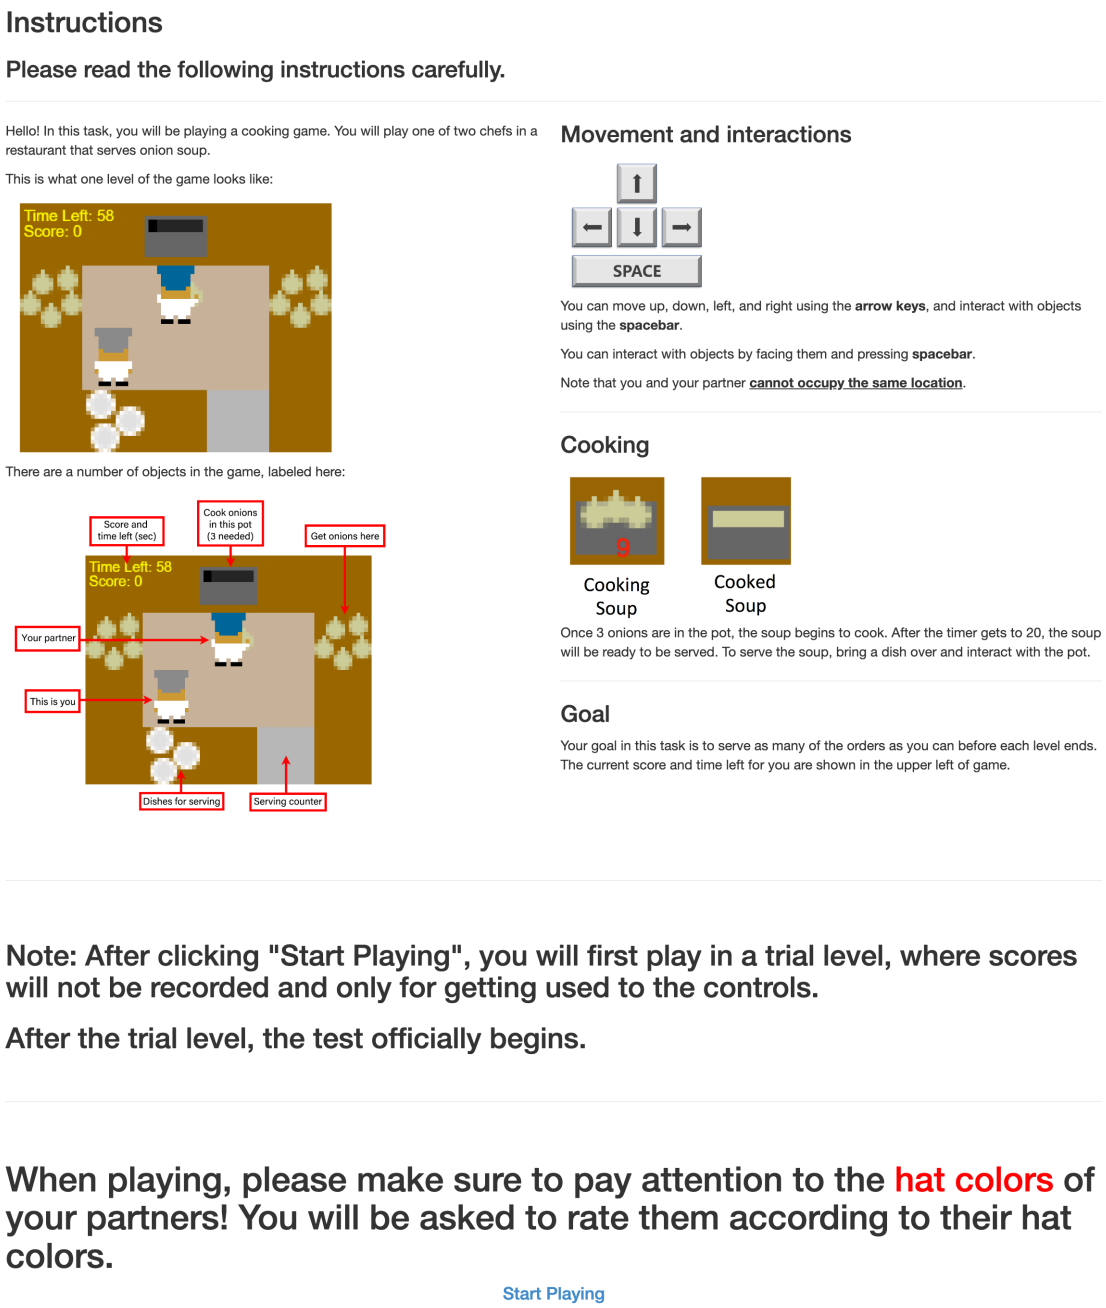

Figure 15: Screenshots of the Human-AI Experiment Platform - instruction providing an overview of the environment interface, operation instructions, and game objectives.

Figure 16: Screenshots of the Human-AI Experiment Platform - trial playing: players engage with the human proxy model to familiarize themselves with the system.

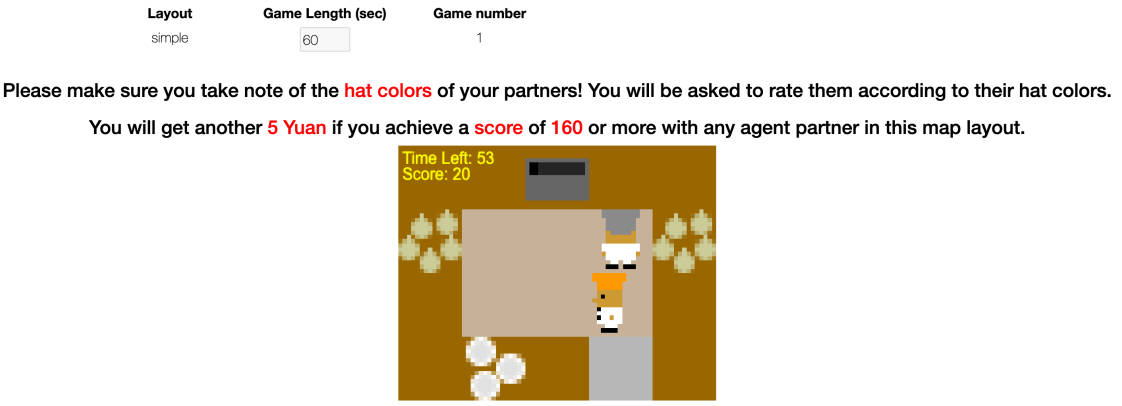

Figure 17: Screenshots of the Human-AI Experiment Platform - Game Playing: displaying the layout name, game length (in seconds), and game number at the top, followed by reminders about hat colors and the bonus awarded for the current game. The middle area is the game interface, where human players interact with the AI agent.

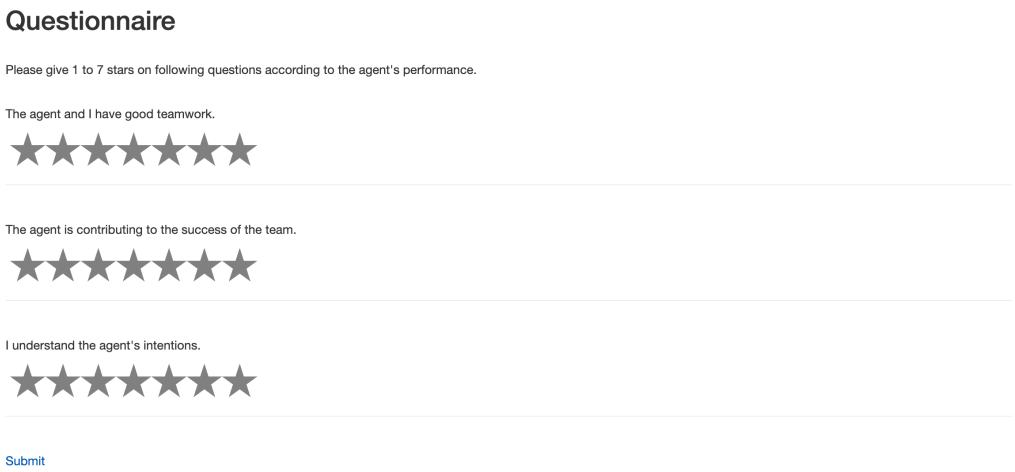

Figure 18: Screenshots of the Human-AI Experiment Platform - Individual Questionnaire: Participants score the performance of the AI teammate in the finished game.

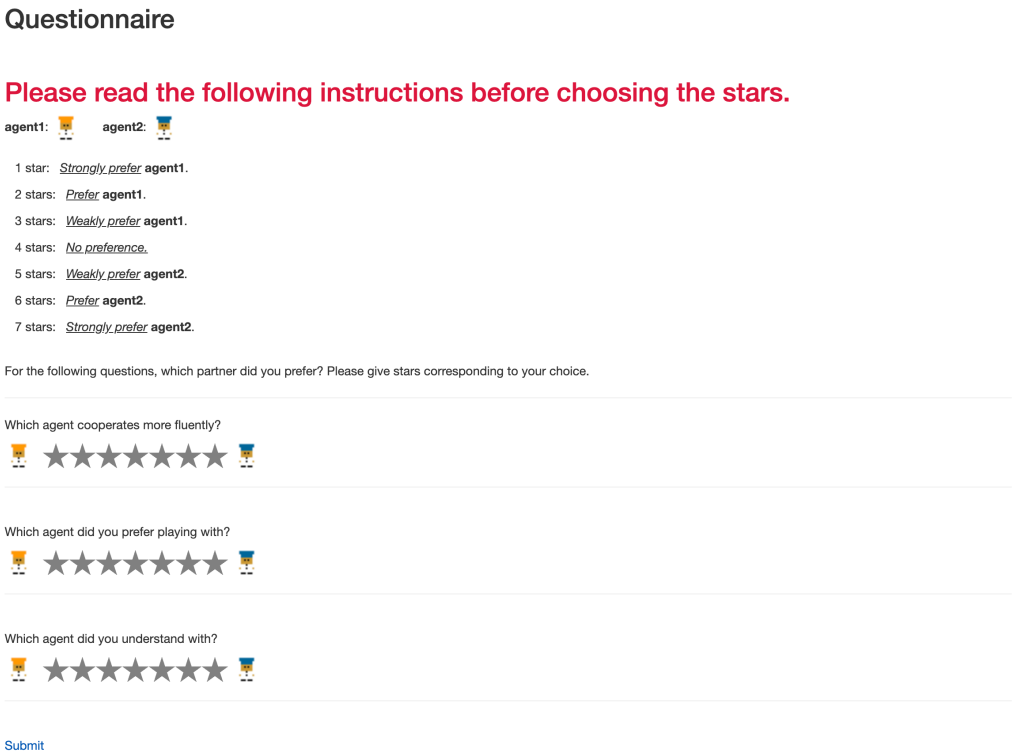

Figure 19: Screenshots of the Human-AI Experiment Platform - Final Questionnaire: Participants compare and rank the performance of AI partners.
